

XELVORA GLOBAL SOURCING LTD.

SUPPLIER VERIFICATION GUIDE

Building Trust Through Verified Global Suppliers

Introduction

At Xelvora Global Sourcing Ltd., we help businesses reduce procurement risks by conducting structured supplier due diligence before purchase decisions. Our verification service is designed to help clients source confidently from trusted manufacturers and suppliers.

Why Supplier Verification Matters

Supplier verification helps reduce the risk of fraud, poor-quality products, shipment delays, counterfeit goods, and dealing with unregistered or unreliable suppliers.

Our Verification Process

1. Company identity verification.
2. Manufacturer assessment.
3. Product capability review.
4. Quality management review.
5. Export readiness assessment.
6. Business reputation review.

What We Verify

- Business registration
- Factory capability
- Production capacity
- Product quality systems
- Export experience
- Packaging standards
- OEM/Private Label capability where applicable

Additional Services

Factory visits (through approved partners), third-party inspections, sample verification, production monitoring, container loading inspections, and pre-shipment inspections.

Verification Report

Clients receive a report summarising the supplier profile, verification findings, strengths, potential risks, recommendations, and an overall assessment to support procurement decisions.

Benefits

- Reduced procurement risk
- Greater confidence before payment
- Better supplier selection
- Improved supply chain reliability
- More informed purchasing decisions

Request Verification

Provide the supplier name, website (if available), product details, factory location (if known), and supporting documents. Our team will recommend the most suitable verification approach.
